Zannetti, L. Vortex equilibrium in flows past bluff bodies, 151–171

A. Zadražil, F. Stepanek & O. K. Matar	Droplet spreading, imbibition and solidification on porous media	1
W. P. Breugem, B. J. Boersma & R. E. Uittenbogaard	The influence of wall permeability on turbulent channel flow	35
Á. Viúdez	Spiral patterns of inertia–gravity waves in geophysical flows	73
F. Bellet, F. S. Godeferd, J. F. Scott & C. Cambon	Wave turbulence in rapidly rotating flows	83
J. Chen, C. Meneveau & J. Katz	Scale interactions of turbulence subjected to a straining–relaxation–destraining cycle	123
L. Zannetti	Vortex equilibrium in flows past bluff bodies	151
R. D. O'Dea & S. L. Waters	Flow and solute uptake in a twisting tube	173
B. Scheid, C. Ruyer-Quil & P. Manneville	Wave patterns in film flows: modelling and three-dimensional waves	183
B. Giacomazzo & L. Rezzolla	The exact solution of the Riemann problem in relativistic magnetohydrodynamics	223
J. S. Mathunjwa & A. J. Hogg	Stability of gravity currents generated by finite-volume releases	261
R. Porter & D. Porter	Approximations to the scattering of water waves by steep topography	279
J. M. Gordillo & M. Pérez-Saborid	Axisymmetric breakup of bubbles at high Reynolds numbers	303
M. J. Ablowitz, A. S. Fokas & Z. H. Musslimani	On a new non-local formulation of water waves	313
P. Gao & X.-Y. Lu	Effect of surfactants on the long-wave stability of oscillatory film flow	345
M. R. Turner & P. W. Hammerton	Asymptotic receptivity analysis and the parabolized stability equation: a combined approach to boundary layer transition	355
M. Oberlack, W. Cabot, B. A. Pettersson Reif & T. Weller	Group analysis, direct numerical simulation and modelling of a turbulent channel flow with streamwise rotation	383
S. G. Chumakov	Statistics of subgrid-scale stress states in homogeneous isotropic turbulence	405
R. P. Clark & A. J. Smits	Thrust production and wake structure of a batoid-inspired oscillating fin	415
E. V. Buldakov, P. H. Taylor & R. Eatock Taylor	New asymptotic description of nonlinear water waves in Lagrangian coordinates	431
V. K. Siddavaram & G. M. Homsy	The effects of gravity modulation on fluid mixing. Part 1. Harmonic modulation	445
